AA4400FIZZ

The AA4400FIZZ is available as a Bottled or a POU cooler. Sparkling cold water "on tap" rather than expensive bottled water.

Refreshing carbonated water from a Bottled or POU cooler.

The 600gsm or much larger 3-5 kg CO₂ cylinders are well hidden inside the body of the cooler.

The drip tray has been designed to allow for a 3 or 10 litre overflow kit to be fitted.

Easily convertible from bottled to POU. The bottle top includes SpillGuard leak protection.

The drip tray can be connected to mains drainage. This can include a pump to pump the waste up to 150m and 3m high (factory installed).

Cowling to fix the cooler securely to the wall – supplied separately. Also fits AA3300, ArcticChill88 and ArcticStar55.

SIP Automatic 24/7 ozone sanitising with sleep mode. Reduces sanitising callouts by 50% and energy consumption by 40% – factory installed.
