Lavazza Professional FLAVIA® Creation® 200

Coffee Shop Merchandiser

The freshest drinks your employees will taste, every time

Our Freshpack Technology

Freshest ingredients including fresh ground coffee are sealed inside our Freshpacks and flushed with nitrogen to prevent oxidation. This unique process locks in the taste and aroma until the moment it is served.

Only water passes through the machine, so there's no cross contamination; no coffee taste to spoil your peppermint tea; and cleaning takes a fraction of the time required with other machines.

Freshest Ingredients

Product variety, from known and owned brands

An unsurpassed range of products from owned brands and proprietary favourites, catering for all palates. Lavazza offer the optimum solution for your workplace.

Industry Leading Reliability

Easy to fill, clean and empty and built to last with over 2 years of uninterrupted service¹, the Lavazza Professional FLAVIA® Creation® 200 is the perfect hassle free solution for every workplace.

"The reliability of the machines and service from FLAVIA is first class, ensuring our teams always have access to free, hot drinks throughout the day."

Supporting Our Planet

After seeing the destruction of unsold coffee crops first-hand in South America in 1935, Luigi Lavazza was deeply moved and set his vision for doing business. Ever since, Lavazza has been focused on improving the development of the countries and people we buy coffee from.

We are committed to innovating products and processes while ensuring quality excellence in a sustainable manner.

Through various initiatives over the last 10+ years, including the Giuseppe Pericle Lavazza NGO Foundation, we've been taking action to improve the economies, communities, and overall working conditions of small coffee producers throughout South and Central America, Asia, and Africa.

A worldwide sustainable coffee leader; we are Lavazza.

"A world that destroys the goods of nature is one I do not belong in"

-LUIGI LAVAZZA, 1935
