EFFORTLESS IN ANY ENVIRONMENT.

# WMF 5000 S+

EXCELLENT COFFEE INDULGENCE,  
EFFORTLESS IN ANY ENVIRONMENT.

"In my business, it's all about delivering consistent high quality and choice, quickly. My customers want great coffee, their way, and they want it fast. The WMF 5000 S+ ticks all the boxes. So even at peak times, I can rely on it to perform perfectly."

If you're running a busy restaurant, café or bakery, you want to serve a wide range of premium coffee specialities, and you want to serve them rapidly. The WMF 5000 S+ has the power and the agility to satisfy all your customers, at the pace they demand. Its two grinders, two possible milk variants and optional Syrup Station offer countless sophisticated beverage choices. With the option of WMF's unprecedented Fresh Filtered Coffee technology, it can even satisfy filter coffee enthusiasts to the best. And it can dispense coffee and hot water in parallel, thanks to the optional 9 kW heating capacity. Recommended for venues with an average daily requirement of 250 cups, it meets

the needs of medium to large businesses with ease. All this is made possible by the machine's robust design, high-grade components and cutting-edge features. From the elegant metal housing and durable heavy-duty brewer to the high-voltage power supply and optimized boiler, every component is engineered to guarantee high performance and maximum reliability over the long term. The intuitive 10" colour touch display catches the eye and makes ordering easy in both served and self-service situations. Meanwhile the Dynamic Coffee Assist and Dynamic Milk Assist technologies constantly monitor and adjust the relevant factors to ensure consistently high quality of both coffee and milk.

WMF 5000 S+

# Performance

DELIVERING A PREMIUM COFFEE EXPERIENCE

## HEAVY-DUTY BREWER

The heavy-duty, stainless steel brewer is made in Germany with hardwearing components to guarantee you high performance and maximum reliability over many years of service. Its design features a robust, die-forged frame and a fine sieve for preparing finer recipes, while its 19 g capacity permits larger brewing batches in a single step. As it is permanently installed in the machine, the brewer requires no additional cleaning.

## HIGH OUTPUT

Recommended for venues with an average daily requirement of 250 cups, the WMF 5000 S+ makes premium coffee specialities fast. So you can be confident that everyone will be served promptly, even in high-volume situations.

**250**  
CUPS PER DAY

WMF 5000 S+

# Versatility

OUR INNOVATIONS, YOUR WAY

## LARGE BEAN HOPPERS

For maximum variety, the WMF 5000 S+ comes with up to three hoppers, allowing you to offer two different kinds of coffee beans. There's also a hopper for topping or chocolate powder that can hold up to 2 kg of powder, and a further type of ground coffee such as decaffeinated coffee can be added to the manual insert. The bean hoppers on the left and right can hold up to 1,100 g of beans, and the central one has a 700 g capacity. To optimize their visual impact, the hoppers share a coordinated design and each comes with a lockable, stainless steel lid. What's more, they are removable and dishwasher-safe for easy cleaning.

## MILK SYSTEM

Enabling you to tap into the market for cold milk mixed beverages as well as hot coffee specialities, the Easy Milk system automatically dispenses cold milk as well as hot milk or hot milk foam via the beverage spout. The Dynamic Milk system offers an even wider range of possibilities, allowing the fully automatic preparation of four different consistencies of hot milk foam and three variations of cold milk foam, as well as hot and cold milk.

## 2-MILK SOLUTION

Thanks to the optional 2-milk solution, you can offer two different types of milk, for example giving your customers the choice of low-fat, soya or low-in-lactose milk. The automatic switch valve function ensures the two milk types do not come into contact with each other, and only the selected milk type is used to prepare the beverage.

## CHOC MIXER

Designed to offer delicious chocolate specialities with minimum effort, the Choc Mixer promises easy handling and maintenance, thanks to a magnetic lock that guarantees correct insertion of the mixer bowl. Moreover, it is monitored by an integrated sensor that recognizes whether it is correctly positioned to avoid leakages.

WMF 5000 S+

# Quality

ENGINEERED FOR CONSISTENT PERFECTION

## STEAM SYSTEMS

WMF steam systems allow any user achieve perfect hot milk and foam results. Easy Steam uses a semi-automatic steam lance that switches off on reaching the prescribed temperature to make traditional milk frothing much easier. Auto Steam, with its separate steam lance, lets you adapt milk foam density for each individual coffee creation, and produces three different types of milk foam completely automatically.

## DYNAMIC MILK ASSIST

Innovative Dynamic Milk Assist technology ensures the constant high quality of all milk drinks. Using state-of-the-art sensors, it continuously monitors the temperature in the cooler and the milk flow in the machine. Based on these values, it regulates factors like the pump speed to create perfect milk foam of the pre-selected consistency. In addition, Dynamic Milk Assist can also detect when the milk level is empty, even in bag-in-box systems.

WMF 5000 S+

# Usability

ALL THE FUNCTIONS YOU NEED AT YOUR FINGERTIPS

## 10" COLOUR TOUCH DISPLAY

The WMF 5000 S+ immediately invites interaction with its attractive 10" colour touch display, featuring realistic product depictions and individual colour worlds. Navigation is intuitive, using familiar touch and swipe menus, with both served and self-service modes available. Perfect for presenting nutritional information, the display can also be used to show videos, for example to promote special offers at certain times of day.

## BEVERAGE ORDER SETTING

To save time and effort, the display includes an option to pre-select multiple beverages in a single order. These beverages are then automatically produced one after the other.

## CLEANING SYSTEMS

The Clean in Place system is the ultimate in user-friendly efficiency. The machine automatically cleans and rinses itself with hot water and steam after dispensing water into a

box containing a cleaning tablet. The Easy Clean system is similar, except that on models with this system the foamer head has to be cleaned manually once a week.

## NUTRITION FACTS

The display of the WMF 5000 S+ is also perfect for showing nutritional information about the beverage being prepared, which can be very useful for compliance with tightening regulatory requirements. Information about various bean and powder types is already stored in the machine, and data on other recipes can easily be imported.

## TIMER FUNCTIONS

The WMF 5000 S+ can be set to turn itself on and off, or activate and deactivate certain functions and beverages, whenever you want.

## LANGUAGE SELECTION

The language used on the display of the WMF 5000 S+ can be selected to make it easy for anyone to operate. Customers and staff can even select their own language during operation.

WMF 5000 S+

# Customisation

TAILOR YOUR COFFEE MACHINE TO YOUR BUSINESS

## ILLUMINATED LED SIDE PANELS

The coloured side panels of the WMF 5000 S+ are illuminated with LED lighting, which can be adjusted to suit your ambience. Moreover, the panels flash when action is required, for example when it is time for a refill. This simple feature quickly attracts the operator's attention, even from a distance.

## BRANDING

The WMF 5000 S+ is ready to adapt to your specific requirements in every way. That includes the option of featuring your own logo on the display screen menus, as well as customising colours and backgrounds, or uploading your own beverage symbols.

## PRE-SELECT / POST-SELECT MODE

Pre-Select mode is ideal for staff, letting them select the size of the cup, the coffee strength or milk type, then the beverage. The alternative, Post-Select mode, is perfectly suited to self-service sales: the customer first selects a beverage and can then specify additional parameters.
