

WMF 1500 S+

UNPRECEDENTED COFFEE VERSATILITY,
WITH GUARANTEED HIGH QUALITY.

Features & Innovations

FOR WMF CUSTOMERS,
THE FUTURE COMES AS STANDARD.

Blending reliable performance with intuitive operation, the WMF 1500 S+ packs an eclectic array of advanced features into its slim dimensions. What's more, it can be tailored to meet your needs and satisfy your customers' preferences.

The WMF 1500 S+ is the versatile solution for providing premium coffee specialties. It combines the high quality and long-term reliability you expect from WMF with the flexibility you desire and the variety your customers appreciate. It delivers the ease of use

that ensures efficiency in both served and self-service environments. Add the benefits of pioneering digital connectivity, and you have all the ingredients you need to grow and evolve your coffee business over many years.

Customisation

TAILOR YOUR COFFEE MACHINE TO YOUR BUSINESS

ILLUMINATED LED SIDE PANELS

The coloured side panels of the WMF 1500 S+ are illuminated with LED lighting, which can be adjusted to suit your ambience. Moreover, the panels flash when action is required, for example when it is time for a refill. This simple feature quickly attracts the operator's attention, even from a distance.

ADVERTISING

The colourful 10" touch display also offers you opportunities to increase sales through eye-catching advertising or tailored special offers. So while your customers' beverages are being prepared, you can take advantage of their time and attention.

INDIVIDUAL BEVERAGE SIZE

To make life even simpler for users, they can customize the filling quantity individually via an easy-to-use touch slider before their beverage is dispensed.

PRE-SELECT / POST-SELECT MODE

Pre-Select mode is ideal for staff, letting them select the size of the cup, the coffee strength or milk type, then the beverage. The alternative, Post-Select mode, is perfectly suited to self-service sales: the customer first selects a beverage and can then specify additional parameters.

BEVERAGE PARAMETER SETTING

For ease of operation, the helpful "Small-Medium-Large" function lets you preset various desired filling volumes and match them to each beverage.

BEVERAGE BUTTON LAYOUT

You also have the option to rearrange button layouts, adding and removing buttons. For example, in a self-service environment you might choose a single-row layout.

BRANDING

The WMF 1500 S+ is ready to adapt to your specific requirements. That includes the option of featuring your own logo on the display screen menus, as well as customising colours and backgrounds, or uploading your own beverage symbols.

NUTRITION FACTS

The display of the WMF 1500 S+ is also perfect for showing nutritional information about the beverage being prepared, which can be very useful for compliance with tightening regulatory requirements. Information about various bean and powder types is already stored in the machine, and data on other recipes can easily be imported.

FRESH FILTERED COFFEE

With WMF's innovative Fresh Filtered Coffee option, you can serve both filtered coffee and a wide range of coffee specialities from a single machine, offering maximum variety with a minimal footprint. Each cup of delicious filtered coffee is freshly brewed to a constant temperature, volume and flavour, for consistent high quality over time. And with every cup brewed to order, there's no waste!

MILK SYSTEMS

The WMF 1500 S+ comes with a choice of three WMF milk systems. Basic Milk prepares classic coffees with hot milk and hot milk foam, such as cappuccino, latte macchiato and latte. Easy Milk enables you to tap into the market for cold milk mixed beverages too, automatically dispensing cold milk as well as hot milk or hot milk foam. The Dynamic Milk system offers an even wider range of possibilities, allowing the fully automatic preparation of four different consistencies of hot milk foam and three variations of cold milk foam, as well as hot and cold milk.

Usability

ALL THE FUNCTIONS YOU NEED, AT YOUR FINGERTIPS

CLEANING SYSTEMS

Each of WMF's automated, HACCP-compliant cleaning systems is engineered to optimize efficiency and ease of use, simplifying the maintenance process and reducing costs. With Clean in Place, the machine automatically cleans and rinses itself with hot water and steam after dispensing water into a box containing a cleaning tablet. Easy Clean is similar, except that the foamer head needs to be cleaned manually once a week. With the Plug&Clean system, an adapter is removed from the milk box and plugged into the machine. The automatic program cleans the whole milk system with hot water and steam, while the foamer head has to be cleaned manually once a week. The Basic Clean system requires the coffee machine to be cleaned manually with a cleaning liquid, then rinsed with fresh water. The spout is also cleaned manually once a day and placed in cleaning liquid.

10" COLOUR TOUCH DISPLAY

The WMF 1500 S+ immediately invites interaction with its attractive 10" colour touch display, featuring realistic product depictions and individual colour worlds. Navigation is intuitive, using familiar touch and swipe menus, with both served and self-service modes available. Perfect for presenting nutritional information, the display can also be used to show videos, for example to promote special offers at certain times of day.

LANGUAGE SELECTION

The language used on the display of the WMF 1500 S+ can be customized to make it easy for anyone to operate. Customers and staff can even select their own language during operation.

TIMER FUNCTIONS

The WMF 1500 S+ can be set to turn itself on and off, or activate and deactivate certain functions and beverages, whenever you want.

Technical Data Overview

ALL THE FACTS AND FIGURES YOU NEED

TECHNICAL DATA OVERVIEW

325 mm

590 mm

716 mm

| WMF 1500 S+ | BASIC MILK | EASY MILK | DYNAMIC MILK |
|--------------------------------------------------|------------------------------------------------------|-----------|--------------|
| Recommended for an average daily requirement of* | 180 cups | | |
| Nominal power rating / mains power connection | 2.75 - 3.5 kW / 220 - 240 V | | |
| Output per hour according to DIN 18873-2 | | | |
| Espresso / 2 espressi | 124 / 194 cups | | |
| Café crème / 2 café crèmes | 96 / 122 cups | | |
| Cappuccino / 2 cappuccinos | 124 / 194 cups | | |
| Cold milk beverages | - | √ | √ |
| Cold milk foam beverages | - | - | √ |
| Total hot water output / hour | 143 cups | | |
| Energy loss per day according to DIN 18873-2 | 1.29 kWh | 1.37 kWh | 2.10 kWh |
| Coffee bean hoppers | Right and left approx. 1100 g, central approx. 700 g | | |
| Choc or topping hopper (optional) | Approx. 2000 g | | |
| External dimensions (width / height** / depth) | 325 / 716 / 590 mm | | |
| Water supply | Water tank (approx. 4.5 l) or fixed water supply | | |
| Empty weight (depending on the model) | 32 - 36 kg | | |
| Continuous sound pressure level (LpA)*** | < 70 dB(A) | | |

The WMF 1500 S+ is available with the following milk and steam systems:

| | BASIC MILK | EASY MILK | DYNAMIC MILK |
|-------------------------------------------------------------------------------------------------|------------|-----------|--------------|
|  BASIC STEAM | √ | √ | √ |

* Output is determined using a machine with constant water supply and is dependent on cup size, quality settings, spout, model and nominal power rating. The recommended maximum daily capacity is based on our catalogue service concept. However, these average values serve merely as a guideline. Let our trained WMF team match the ideal coffee machine design to your specific needs.

** Height including coffee bean hoppers

*** The A-rated sound pressure level LpA (slow) and LpA (impaired) at operating personnel work stations is under 70 dB(A) in any operating mode. Above 5' dKH (carbonate hardness), a WMF water filter must be fitted.

Accessory Equipment

EXTEND AND ENHANCE
YOUR WMF COFFEE MACHINE.

Combining elegance and intelligence, each WMF accessory is designed to complement your WMF 1500 S+ perfectly and enhance the experience for operating personnel and coffee consumers alike.

Choose from a range of high-quality WMF accessories to complete your coffee offering. Pre-heating cups to the right temperature is crucial for enjoying coffee specialities of the highest quality, while cooling milk to the optimum temperature for conservation is every bit as important. The addition of syrups can offer your customers even more choice. Our range of accessories for the WMF 1500 S+ includes attractive Cup Racks and Coolers, combination Cup&Cool units, and a stylish Syrup Station. Naturally, as you would expect from WMF, every item is beautifully coordinated with the design of your coffee machine.
